Invitation: Editor-Molecular Biology

OMICS Publishing Group – Molecular Biology - Open Access

Dear Dr. Burkhard Morgenstern,

OMICS Publishing Group successfully publishing quality open access journals with the support from scientists like you. We are aware of your reputation for quality of research and trustworthiness in the field of "Molecular Biology" and that is why you have been chosen as an Editorial Board Member of our Molecular biology Journal.

One of many spam invitations from the *OMICS* group ...

... to join an editorial board in a field I never worked in

How it all started

How to become 5-Star OMICS International editors

The selection of the "right" editor for a journal is one of the most important decisions made by **OMICS International**. Anything published in the journal passes by editor's desk. Organization is influenced by the editor and their decisions. The success of one's own journal will depend on the performance of the editor. The job of the editor is to "make things happen!"

Editors, Executive editors & Editor-in-Chief of journals must be senior researchers, e.g. chaired professors.

The author scientific credits will be provided based on

- » Rolling up a pronominal editorial board
- » Calling initial articles from editorial board members
- » Solicit a steady stream of articles on a regular basis together with other editorial board members

They have very high quality standards for their editors . . .

How it all started

Editor scientific credits

OMICS International extends its gratitude towards the editor with the CERTIFICATE of updated **SCIENTIFIC CREDITS** regularly through online tracking system for fulfillment of potential editor criteria.

The editor has been judged based on

1. Exemplary Time lines (ET)
2. Quality of Comments (QC)
3. Total Editorials published (TE)
4. Justified Decision (JD)
5. Suggestions to Editors/Authors (SA)

Scientific credits for OMICS editors

Scientific Credit= Average individual credits for Exemplary Time lines, Quality of Comments, Suggestions to Authors, Justified Decision of individual assignments \times Total Editorials published

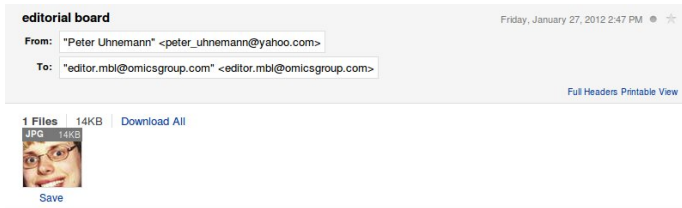

Average Credit for overall reviewed articles (AC) = $ET+QC+SA+JD/4$

Total Editor Scientific Credit (SC) = $AC \times TE$

... which are monitored based on sophisticated metrics

How it all started

Dear Ladies and Gentlemen:

From a colleague, I heard about your new "Molecular biology Journal". I think, this is an exciting new open-access journal.

I am working in Microbiology since more than 12 years, and I would be excited if I could work with you on this new journal. Therefore, I apply to become a member of the editorial board of "Molecular biology Journal".

Below is my CV. Please find attached a photo for your home page. I am looking forward to hearing from you.

Sincerely

Dr. Peter Uhnemann

Peter Uhnemann contacts *Mol. Biol. J.* to join their ed. board . . .

Dear **Peter Uhnemann**

We welcome you in "[Journal of Advances in Biology](#)" ([JAB](#)). We have received your request to join as a member of the editorial board in our journal. We want to bring to your kind notice that you have to purchase the membership of "[Council for Innovative Research](#)" ([CIR](#)), to join the Editorial Board/ Chief Technical Advisory board in JAB. You will be the member in all CIR journals ([List of CIR Journals](#)) including JAB by purchasing the membership of CIR.

You will avail the following benefits with this membership:

- Ø You would enjoy 50% discount in all CIR journals, visit [this link](#) for all CIR journals.
- Ø Your manuscripts would be reviewed on a fast track basis & without any additional charges.
- Ø You would not be charged any modification/ editing fee for your articles.
- Ø Fast publication process for your articles.
- Ø For more details, kindly visit www.cirworld.com.

Journal of Advances in Biology

Virtual editors can help with decision making

For much of the last week, I have been looking for a solid reason to either go ahead or not ahead with a manuscript I submitted to **HOAJ Biology**, a journal I later discovered made **Beall's List of Predatory Open-Access Publishers**. There were many good reasons, in my mind, to just do it – it was peer-reviewed, my article and software are sound (though a minor contribution) and I would like closure on this project I finished a year ago. It turns out, there are some even better reasons not to publish with this journal. First and foremost, there is a FICTIONAL PERSON on the Editorial Board.

<http://nothinginbiology.org>

Virtual editors can help with decision making

Shortly after **this post**, **Dr. Todd Vision**, with **NESCent** and **UNC Chapel Hill**, emailed me and asked if he might be of help. After sending him the manuscript with some additional details, he replied with this advice:

As for HOAJ Biology specifically, <an editor's name deleted> may be legitimate, but that doesn't mean he actually helps oversee peer review. I suggest you look up the credentials of another one of the editors, Peter Uhnemann, before you draw any conclusions about the involvement of the editorial board: <http://phylogenomics.blogspot.ca/2012/01/scary-and-funny-functional-researcher.html>

I highly recommend people read that whole post, but for those in a hurry: “Peter Uhnemann” from the “Daniel-Duesentrieb Institute” is a fictitious person from a fictitious institution. And he’s listed plain as day on HOAJ Biology’s Editorial Board! (I

<http://nothinginbiology.org>

Virtual editors can help with decision making

So, I am retracting my submission and going instead with either **arXiv** or **figshare**, which are non-peer reviewed, but citeable places to deposit research articles and/or software.

<http://nothinginbiology.org>

Virtual editors can help with decision making

I am grateful to Dr. Vision (and Dr. Jonathan Eisen for the original post about “Peter Uhnemann”) and to all the commenters here for advising me when I really wasn’t sure what to do. (Final note: I suppose I should say that my experience with HOAJ Biology doesn’t mean all the smaller, open-access journals out there are Bad. Doing my homework paid off, though!)

IJASM Overview

NEW

"Submissions open for Volume 3, Issue 1, Jan.-Feb., 2016"

IJASM is an international academic journal which gains a foothold in India, Asia and opens to the world and approved by National Science Library (NSL), National Institute of Science Communication And Information Resources (NISCAIR), Council of Scientific and Industrial Research, New Delhi, India. It aims to promote the research in field of Science and Mathematics. The focus is to publish papers on state-of-the-art Science and Mathematics. Submitted papers will be reviewed by technical committees of the journal and Association. All submitted articles should report original, previously unpublished research results, experimental or theoretical, and will be peer-reviewed. Articles submitted to the journal should meet these criteria and must not be under consideration for publication elsewhere. Manuscripts should follow the style of the journal and are subject to both review and editing.

Frequency: 6 Issue per year
Status: Published Online
Subject Category : Physics, Chemistry, Mathematics

Send your paper at E-mail: submit2ijasm@yahoo.in , submit@ijasm.org
(It is mandatory for authors to send their papers to both above mentioned email addresses)

Final Paper Submission should be done at E-mail: response@ijasm.org, submit2ijasm@yahoo.in
Desktop Version should be done at E-mail: submit@ijasm.org

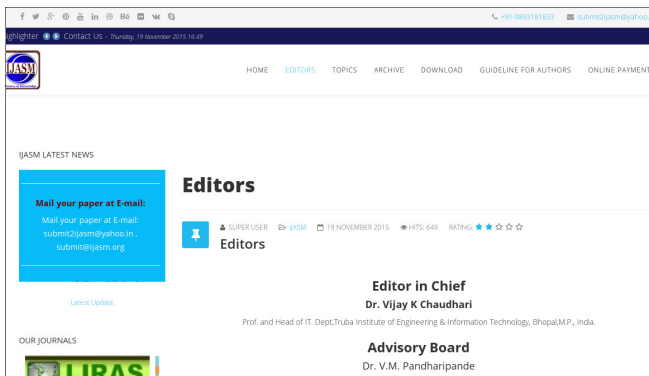

The logo is a square with a blue border. Inside, it says "IJASM" in large red letters. Below it, in smaller text, it says "International Journal of Applied Science and Mathematics". At the bottom, it says "www.ijasm.org".

After four years: still on various ed boards

The screenshot shows the homepage of the journal "Current Trends in Technology & Sciences". The header features the journal's logo, which includes the text "Sharing Knowledge" and "Current Trends in Technology & Sciences" around a stylized "tt" monogram. Below the header is a navigation bar with links: Home, About Us, Editorial Board, Reviewers, Topic, and Publications. A green banner below the navigation bar reads "Latest News". To the right of this banner is a red banner that says "Submission of RESEARCH". On the left side, there is a vertical menu with links: Home, Issue, Partner Journal, Conference, Instructions to Author, and Recommend to your Friend. The main content area has a blue header for "INSTRUCTIONS TO AUTHOR" and a red sub-header for "GENERAL INSTRUCTIONS". Below this, a list of six instructions is provided, detailing the submission process from finding the topic link to waiting for acceptance.

Dear Dr. Hoss Cartwright,

I hope this mail finds you well

Sorry for the inconvenience caused. Due to some technical problem we couldn't respond to your mail on time. We are so happy to have you as an Editorial member for our journal. Please forward your CV, Research interest and your passport size photograph so that we will upload your profile online.

Have a nice day

Regards
Anna

Dr. Hoss Cartwright

Biography :

Dr. Hoss Cartwright received his PhD from the Ponderosa Institute of Bovine Research. The focus of his PhD work was on on general agriculture research, livestock management, cattle driving and high-throughput ethanol consumption in primates, his work was supervised by Prof. Ben "Pa" Cartwright, founding director of Ponderosa Institute. Dr. H. Cartwright also conducted numerous studies on the behaviour of higher primates in the Silver Dollar saloon, Virginia City. He co-developed the highly-visible series Bonanza which is the most cited western series according to Thomson Reuters / ISI. In a long-term study, Dr. Cartwright could show that Bonanza is much better than competing approaches such as Gunsmoke or High Chaparral. Dr. Cartwright is a member of the American Association of Spoof Researchers (AASR), he serves on the editorial board of "Journal of Agriculture and Life Sciences" (JALS). His current position is Senior Cattle Manager at Ponderosa Institute.

Dear Dr. Hoss Cartwright,

Greetings from the Journal of Primatology

We hope you are doing great. We feel very privileged to have you as an editorial board member. We thank you for your support till now for uplifting our journal towards success. We require the same support now from you. I wonder if you could submit a 2 page Editorial/short communication/mini review article towards the issue of Journal of Primatology

It would be great if you could submit it by 20th April 2015, so that I could process it for the April Issue. It would be great if you can notify us your valuable decision within 48 hours

Please treat this mail as very important and pivotal

Eagerly waiting for your prompt and positive response

Best Regards

Anna
